

SCANDINAVIAN INSTITUTE of COMMUNICOLOGY
Celebrates 40 YEARS - 1981 – 2021
at Post Graduate Program - Crete September

Dear Communicologists and Advanced Level Students!

The Corona-situation is special in many ways – for us f.ex. lots of module-cancellations.

Our plan now is to do the post-graduate weeks at Crete in September – aware that «Corona decides»..

Our work with systematization of knowledge has been going on continuously since the 1970`s - in two main frames:

1): «Context of Discovery».

Result: Inter-Disciplinary Meta Discipline with common language / conceptual framework and educational programme since the 1980`s.

2): «Context of Confirmation».

Extensive «perforssor»-work «digging into, across and out of» a number of central fields of knowledge related to Communicology:

tacit knowledge: personal knowledge; the body-mind problem;
neuroscience, neuroplasticity; the paradigm-discussion;
the communication-tradition; the interactional view: systemic....
pedagogical and societal implications.

Result: Confirmation of Frame-selection, Material-sortings and Pedagogics.

The Scandinavian Institute of Communicology has by now been up running for 40 years which will be marked in all modules with celebration and anniversary lectures from «Context of Confirmation».
